

At the Heart of Your Practice

MSD cardiovascular agents

The quality you depend on...the innovation you value. These are the hallmarks of cardiovascular agents from Merck Sharp & Dohme. For more than 50 years, MSD has developed breakthrough pharmaceuticals under the most exacting standards to help you provide the best possible cardiovascular care.

From the first diuretic to the first inhibitor of cholesterol synthesis, Merck Sharp & Dohme has been a leader in new drugs for cardiovascular disease. And our research continues, guided by a goal we share with you and your colleagues —helping patients lead healthier, more productive lives.
